

Day2_Schedule_EN

Day 2 — Working with Files & Permissions

Date: 20.08.2025

Start time: 14:00

Total duration: 8h

Review Day 1 + new commands

Review key commands from Day 1 and learn new ones: `ls`, `cd`, `pwd`, `tree`, `stat`.

Working with nano

Learn how to create, open, and edit files using nano, and how to save and exit the editor.

Copying, moving, deleting

Learn commands for working with files and folders: `cp`, `mv`, `rm`, `rmdir`.

Permissions

Learn `chmod`, `chown`, `chgrp`, understand how to read and change permissions.

Mini-labs: "Project Folder Setup Script"

Create a script that automatically sets up a project folder and file structure.

Daily summary + upload to GitHub

Fill in the daily summary in Notion, export to PDF, and upload new files to GitHub.
